Heavy Losses in Men and Guns 'Are Reported. Bombardment of Port Arthur by Two Divisions of the Mikado's Fleet-Seven Chinese Killed and Five Soldiers and Three Chinese Wounded-Korean Palace

[BY THE ASSOCIATED PRESS-P.M.]

ONDON, April 15 .- [By Atlantic Cable.] The St. Petersburg correspondent of the Standard sends a rumor to the effect that Vice Admiral Togo's fleet escorted a Japanese body of troops to the westward of the Yalu River. When 12,000 men had been landed, the Russian troops, which were lying concealed, suddenly attacked them, driving them back to the ships with heavy losses in men and guns.

PORT ARTHUR, April 15 .- A bombardment by the Japan enced at 6 o'clock this morning and continued at intervals until 1 o'clock in the afternoon. It was without results.

SEVEN KILLED, EIGHT WOUNDED. [BY THE ASSOCIATED PRESS-P.M.]

ST. PETERSBURG, April 15.-A telegram from Admiral Alexieff from Port Arthur to the Emperor says that from 9:15 o'clock this morning to midday the Japanese fleet, in two divisions, bombarded the fortresses and the town alternately from Liao Ti Shan promontory, firing 185 projectiles. The Russian squadron, including the battleship Pobleda, replied from the anche age by a plunging fire. The batteries also participated.

The losses on land were seven Chinese killed and five soldie and three Chinese wounded. The Russian warships sustained no damage, and there was no loss of life on them.

LONDON, April 15.-The following dispatch has been re ceived by a news agency from St. Petersburg:

"Viceroy Alexieff, telegraphing under today's date, says: 'At 9 a.m., a Japanese fleet of fourteen vessels, in two divisions, bombarded Port Arthur and fired 185 projectiles at the Russian fleet. The battleship Pobleds answered from her anchorage. The batteries also replied. Five men were wounded. The town sustained no damage.""

> BELIEVES PORT ARTHUR SEALED. [BY THE ASSOCIA TED PRESS-P.M.]

LONDON, April 16.-The Times this morning prints a dis patch from its correspondent at sea off the coast of Korea. The dispatch is dated yesterday, and in it the correspondent says he believes the entrance to Port Arthur is now sealed up.

BURNING OF KOREA'S PALACE.

LONDON, April 15.-The Japanesel egation has received the following account of a fire which has destroyed the imperial palace at Seoul: «

"The fire broke out at 10 o'clock on the evening of April 14, with the exception of the Kiuseiken building, which is in the European style, all the other palace buildings were consumed. The Emperor took refuge in the library of the Kiuseiken. It is believed that the fire originated in the heating apparatus of the Kaivel Palace, which was undergoing repairs.

"Japanese soldiers took a prominent part in guarding the erson of the Emperor, as well as in extinguishing the fire, and this produced an excellent feeling in court circles. Ourtroops also did their best to guard the foreign legations, and the foreign representatives afterward expressed to us their sincere thanks."

Other reports say that all the archives, treasures and fewels were destroyed

According to the Daily Chronicle's Seoul correspondent, the fire may have been incendiary, although it is said to have been due to the upsetting of a brazier by a servant.

The fact that the palace buildings were rigorously watche accounted for their entire destruction, for the soldiers prevented the entrance of the Japanese fire brigade, which was early on the spot and might have prevented the spread of the fire but for the obstinacy of the guards.

Apparently there were no fire appliances within the enclosure, and therefore the fire spread with furious rapidity, scattering millions of sparks as the tiled roofs and low wooden buildings came crashing to the ground.

Japanese soldiers and other legation pickets kept order in the constantly increasing crowd. While the Japanese were parleying with the Korean guards the fire began to spread in the direction of the legations. At this juncture British and French marines effected an entrance by the back gates, but it was too late to save anything.

The correspondent continues: "The fire will cease only in the morning, when there is nothing else to burn. The Emperor ary. behaved with remarkable coolness, and personally superintended the escape of his retinue. It is doubtful if the palace will ever be rebuilt."

Later Seoul dispatches say that all is quiet. The Emperor received the members of diplomatic corps Thursday afternoon, in a stone house outside the palace.

"That Russia is already hopelessly beaten and must soon swallow her pride and sue for peace is the opinion of some of the diplomats of highest rank at this capital. Such views were expressed by members of the diplo-matic corps who met socially not many hours ago and talked informally of the outlook in the Far East. These men are not unfriendly to Russia, they are simply statesmen of the world, well-informed, and able, through wide knowledge and long experience, to catch the first faint shadows of com-

Even should it finally be established that a Japanese mine destroyed the Petropaviovsk, it will not affect the general appreciation of Vice-Admiral Makaroff's high qualities. His policy has been thoroughly approved in St. Petersburg, where it is understood that such action would have an excellent effect on the morale of the Russian fleet. As the Admiral's instructions were to conserve his fleet, it is, pointed out that it was his duty to return directly to the harbor on the appearance of a superior force.

Many Koreans believe that the burning of the palace has a political significance, in that it will force the Emperor to return to the Kyong Bok Palace, in the outskirts of the city, where the Queen was assassinated in 1895, and from which the Emperor fied to the Russian Jegation. The Emperor, however, refuses to return, claiming that the palace is haunted by the murdered Queen. "What was the nature of Hyde's business?"
"At that time I did not know, but I saw a circular issued by Hyde which stated that he had lands for sale and that for an additional fee Hyde would attend to the case in Washington. I met Joost H. Schneider through Hyde at Gilroy. We had no conversation concerning land deals. I met John A. Beñson in Hyde's office. I think Hyde introduced us and I think I saw him only three times before I went to Washington and at that time I did not know that Benson was connected with the forest reserves."

An objection to this line of evidence was overruled.
"I did not know that Benson was interested at that time, but later I did. But I did not know that I was to act in any way as Benson's attorney. I was never informed that there were any clerks in Washington, not anyone

in any way as Benson's attorney. I was never informed that there were any clerks in Washington, that I could procure secret information, nor anyone else. There were no instructions that I could not follow with honor."

Dimond then flatly contradicted the statement of William E. Valk that Dimond had given him a letter. He had received letters of introduction, but they were of a personal nature.

MYSTERIOUSLY DISAPPEARS.

IBY THE ASSOCIATED PRESS-P.M.]

KINGMAN (Ariz.) April 15.—H. Seville Sherard, a mining man from Jerome, has disappeared from his lodgings here under mysterious circumstances. He had been around town and gone to his lodgings about midnight, accompanied by a man termed a hobo by the lodging-house keeper, and the two got rooms.

Next morning the men were gone, and no trace of efther can be found. Sherard left all his belongings in his room, not even taking his shoes with him. Indian trailers have been out all over the hills and the town has been systematically searched.

The missing man had a large sum of money on his person at the time of his disappearance. He was a Mason and the members of that order are keeping up the search. A telegram was received here, addressed to Sherard, advising him that his wife was dying in San Francisco.

James E. Rogers is here from Congress Junction searching for George H. Stilliman, who mysteriously disappeared last week. Stillman wrote a letter purporting to be from Kingman and that was the last heard of him. He had nearly a thousand dollars on his person when last seen. He was a miner and well known in this section.

SAN FRANCISCO, April 15.—It is deemed improbable that the Pacific Mail liner Colon will ever leave the beach near Acajulia, on which she was driven to save her from foundering. The Pacific Mail Company has received word that the vessel's back was broken. Under some circumstances there might be a chance for a vessel so injured, but far away, as the Colon is, from proper wrecking facilities, the chances are nearly all against her.

WASHINGTON, April 15.—The General Deficiency Bill was taken up for further consideration, and an agreement was reached limiting general debate to four hours.

Mr. Underwood of Alabama attacked the provision in the bill supplying a deficiency of \$4,000,000 for pensions which, he said, represented \$1,500,000, as the result of the President's recent order regarding age disability, and asked if there was proper authority of law to pay those pensions under that order.

were undertaking to sustain the order of senility issued by President Cleveland.

"If Cleveland was sight," said Mr. Hemenway, "we would have to retire some of our distinguished gentlemen from public life."

Criticiaing the proposed early adournment, Mr. Underwood inquired if it was because the Republicans were afraid to investigate the frauds known to exist in the government departments and permit the country "to look at the bboks."

"The power of legislation," he said, "has been transferred to the President, although the Republicans insist upon being allowed to pass appropriation bills."

But he predicted that, as affairs now were drifting, it would not be many years before Congress would allow the President to issue an order resarding the amount he wanted, and a blanket appropriation bill would be passed.

Mr. Hay of Virginia criticized the President for the number of suspensions of the civil service law, rules and regulations.

Mr. Cramer of Indiana criticized the

TAKE UP STATEHOOD.

(BY THE ASSOCIATED PRESS-P.M.)

WASHINGTON, April 15.—The Republican members of the House today, by unanimous vote, agreed to take up the Statehood Bill recently reported from the Committee on Territories, and begin its consideration in the House today. The length of the debate is to be fixed by a rule to be presented from the Committee on Rules, probably Monday. This rule will permit only one amendment to the bill, as reported from the committee, and probably will limit debate to four hours. This amendment will require that the Constitutions of the new States to be formed shall contain provisions against the sale of liquor to Indians.

The caucus considered the proposition from 8 to 10:45 o'clock. Two speeches were made against Stateshood for the four Territories, one by Chairman Hepburn of the Caucus Committee and the other by Representative Grossvenor of Ohio. Neither speech showed bitter opposition, and the caucus was a resolution presented by Representative Hamilton of Michigan, chairman of the Committee on Territories. Mr. Hamilton and nearly every Republican member of the Committee on Territories made speeches in favor of the bill.

The unconventional way is which the young woman left home and went knocking about the country in search of adventure and recreation has given her relatives and friends no little cauthe for anxiety and mortification, and furnished many columns of sensational stuff for the yellow journals. But her home coming has put an end to all sensational theories as to her fatte. The abduction, murder, suicide and elopement stories, that have been circulated are all refuted by the girl's return in the fiesh without having suffered any spparent injury.

The most bonvincing evidence of this is the growing probability—amounting to a practical certainty—that Judge Alton B. Parker of New York will be the Democratic nominee for the Presidency and that he will be nominated on the first ballot by the national Democratic convention. "This confidence is a superstant of gold from California's display here. A mighty cube will represent the total output of gold from California since gold was first discovered by Marshall. STANFORD UNIVERSITY.

May Elected Editor of The Quad

STANFORD UNIVERSITY, April 14.

At the sophomore election vasted. STANFORD UNIVERSITY, April 14.—At the sophomore election yesterday E. R. May was chosen to edit the Quad next year. The Quad is published annually by the junior class. May was elected by a large majority. He is a law major, and a member of the Delta Tau Delta Fraternity, and has been prominent in student theatricals ever since he has been at Stanford. He registers from Los Angeles.

The cast of the opera "Patience," which is to be given by the senior class during senior week, has been practically chosen. The chorus has already been selected. The work of conducting the rehearsals will be placed in the hands of W. B. Bartlett, who has had much experience in producing amateur performances in San Francisco.

At a meeting of the senior class year.

amateur performances in San Francisco.

At a meeting of the senior class yesterday afternoon, it was decided to appoint a committee to report on the advisability of electing a permanent class secretary to keep the members of the class in touch with one another, and with the Alumni Association.

Dr. Ewald Fluegel, professor of philology, has been granted leave of absence for three years by the trustees of the university. During that time he will complete the Chaucer Dictionary, upon which he has been engaged since 1890. The work will be done under the auspices of the Carnegie Institute of Washington, D. C. Dr. Fluegel will have four assistants in the work. He will do the greater part of his work at his home in Palo Alto, and at the university. Net year he will make a trip to England and France to do some work in the great libraries there, but will be gone only during the summer vacation, a Chaucer Dictionary has never been published, and the undertaking of Dr. Fluegel is of interest to scholars the world over. Dr. Fluegel's grandfather published the first complete Englishederman dictionary in 1830.

C. H. Baker, '94, and G. A. Hodge, '96, will represent Stanford in the intervollegiate tennis match Saturday in both langles and doubles, Both are tennis players of some experience, Hodge is a San Diego man.

J. M. Beach, upon whom Stanford has counted to take second piace in the pole-vault in the field meet with California Saturday, was injured by an explosion in the chemistry laboratory yesterday, and will probably not be able to take part in the meet.

E pregramme conducted by a C. Forbes was begun. Mrs. Introduction was graceful in the speaking as she did of a which, she said, "to quote California poet, Mr. Mc-sas "just California stretch-the middle of the world." It might be a bitter-sweet to some of the old Spanish to recall those haloyon days, it was again, as this sweet California had expressed it:

Columbia Circle, No. 24, Ladies of the G.A.R., gave a reception yesterday afternoon and evening in honor of the department officers of that patriotic order. The function took place at the home of Mrs. Cordella Spence, president of the circle, at No. 1029 Buena Visia street.

The arrangements were in charge of the Executive Committee, consisting of Mmes. Lizzie A. Smith, Carol Marks, Cora Vernon and Gertie Trowbridge. The dining-room was decorated in red, white and blue, and the pariors were in red and green. Music and other features of an entertaining character were enjoyed.

Among the department officers present were Mrs. Martha Herrick, president; Mrs. Carrie Ireland, senior vice-president; Mrs. Belle Ingram, treasurer; Mrs. R. C. Talbot, chaplain.

TRIES TO BE EXECUTIONER.

Fierce Gunshot Assault on Bakersfield Street.

G. T. Cornell Shoots at E. J. Boust and Dr. Schafer.

One Other Man Wounded. Several Narrow Misses.

(BY DIRECT WIRE TO THE TIMES.) Bakersfield, April 16.—[Excusive Dispatch.] As the outcome of the famous Midway shooting case, which was dismissed in Justice Millard's court this morning, George T. Cornell, a cripple and one of the complaining witnesses, deliberately opened fire with an automatic Colt revolver at Dr. with an automatic Colt revolver at Dr. August Schafer and former Deputy United States Marshall E. J. Boust. Cornell was standing at 3 o'clock this afternoon in front of the Arlington Hotel, where he has apartments, when he noticed Dr. Schafer and Boust passing down Nineteenth street conversing with each other, and immediately com-menced shooting at them. Boust was nearer the buildings, and

a bullet passed through his coat and other gurments, and he dodged into Wickersham's jewelry store unhurt. WATCHED AIM AND DODGED.

Dr. Schafer remained very cool. He watched Cornell's aim and repeatedly dodged. Only thirty feet separated Cornell from Schafer and, although he look aim and shot seven times, the terrible nervous excitement that he was undergoing, saved two men from leath.

leath.

Both men were unarmed, and as the ast shot was fired the doctor frantially rushed toward a citizen on the didewalk and felt his pockets for a revolver, but the citizen was likewise marmed and the doctor did not have an opportunity to return the fire. Constable McKay was near and he abbed the crippled man, put him in

FINE PITCHERS' BATTLE BE-TWEEN HALL AND KEEFE.

Two Thousand Fans See Close With Homer Over the Left Field Fence-Jud Smith Makes a Great One-handed Catch of a Liner.

Tacoma 1, Los Angeles 6.

It begins to look now as if Mike
Fisher stands a pretty fair chance to
get away with the pennant for the first get away with the pennant for the first half of the season, for yesterday he showed the fans a kind of baseball that gets away with all the prizes in sight. He has the strongest lot of kid pitchers ever heard of, and with one of them working his head off yes-terday it is small wonder that the Loo-loos were shut out.

terday it is small wonder that the Looloos were shut out.

There is no use trying to figure out
excuses, for the best team won,
and on its merits. The Los Angeles
team is far from being a back number
aggregation. With the Irishmen playing as they did, Chicago or Boston
wouldn't have done much business.
Three singles don't count for many
runs these days and these were all
the locals got from Keefe.

He had about everything that pitchers generally have, and used it all
with deadly effect. He fanned only
two men, but his pitching was so good
that when anyone did land on the ball
it was a dinky bounce or pop fly that
went into someone's hands. The Irishmen put up a swell game behind
Keefe and refused to let one of the
locals break through the lines.

On the other hand Hall was just
about as good, for the visitors hit
him for only five swats, one of these
being Eagan's home run. This was
the thing that won the game, and if
it had not come just right, the teams
might have been playing until dark,
because there was little or no difference in the work of the pitchers. Hall
passed one man and hit another, but
Keefe gave three bases on balls, and
so the wildness was evenly divided.
Hall was touched for two more hits
than Keefe, and there were two errors
behind him, but none of these had anything to do with that homer over the
lett fence.

There was little of the spectacular
about the game except Smith's left-

thing to do with that homer over the left fence.

There was little of the spectacular about the game except Smith's left-handed catch of a high liner from Graham's bat in the third inning. The majority of the times the ball was smacked it did not travel very far, and outs were easy. The high wind did not seem to affect the players, for they judged fly balls that seemed to go out of sight.

judged fly balls that seemed to go out of sight.

The only time the locals could get a man on third base was in the seventh inning, when Cravath and Ross singled, Smith going to third when Chase forced Ross at second on a bounce to Keefe. There was always the feeling, however, that either side might break footh with automatical seemed to go out the second of the s

HIGH ROLLER.

More Sufferers from that Haughty La Fon.

Moneys Collected and Not on Company Books.

Application in for Criminal Proceedings.

Several more of E. J. La Fon's frauds came to light yesterday, and the list of mourners left behind is increasing. La Fon is the haughty youth who tried to revolutionize the business world when ron is the haughty youth who tried to revolutionize the business world when he organized the Young Men's Invest-ment Company, but who, instead, skinned his friends and left town sev-eral weeks ago.

Charles A. Parsons, who took over the Pacific Transfer: Company, after T.a. Fon had muleted it said restricted.

Charles A. Parsons, who took over the Pacific Transfer: Company, after La Fon had mulcted it, said yesterday that La Fon had collected several bills from the Regal Shoe Company, Earl Fruit Company and others just before his departure and had made no return on the books. La Fon kept his books in such a manner that the expert who examined them had no way of ascertaining just what the loss amounts to. It seems that Mrs. Long of No. 2646 La Saile avenue and Don Cameron, an employé of the Sunset Telephone Company, are other victims of La Fon, who found that their, confidence in the young Napoleon of finance had been sadly misplaced. Cameron is said to have advanced \$300 to La Fon to buy a pair of horses, but only 375 was returned. Mrs. Long is said to have advanced \$300 to La Fon to buy a pair of horses, but only 375 was returned. Mrs. Long is said to have bought just \$150 worth of experience from the erstwhile manager of the Young Men's Investment Company. A couple of days ago La Fon wired to his attorney, W. J. Williams of Cochran, Williams & Phillips, that he was coming back to the city at once, he has been in San Francisco since leaving here several weeks ago, but according to letters and telegrams sent

him can be found in his old haunts. When asked about La Fon's return, his friends smiled and shrugged their shoulders.

"Oh, no, you'll never see La Fon back here again," said J. E. Macdonald, one of the directors of the Young Men's Investment Company. He is an employe of the Pacific Electric Company and some of his savings went into the pot that paid for La Fon's wine suppers for the fair sex.

"I certainly do not expect to see La Fon in Los Angeles again," continued Macdonald, "unless he is brought back. La Fon was bright, but he was entirely too bright."

Macdonald did not appear disposed to talk of his personal losses and intimated that he would quietly pocket them. Several young men who were formerly associated with La Fon when he was connected with the Sunset Telephone Company, and who lost various amounts, seemed to look at the matter in the same light, but other victims did not view La Fon's actions so leniently and they say a warrant will be issued for his arrest and if he does not turn up in a few days, he will be brought back from San Francisco.

The Young Men's Investment Company was a peculiarly constructed organization. Its articles of incorporation were filed with the Recorder October 7, 1960, and the business to be transacted was outlined in a general way, including operations in farms, poultry, dairlies, truck teaming and express business, orange growing, mines and mining, etc.

The incorporation was for fifty years and the directors named were M. L. Salisbury, L. E. Long, J. E. Macdonald, E. J. La Fon and R. M. Mitchell. The capital stock was placed at \$20,000 and the amount of stock actually subscribed is quoted as \$40,000, all of which was taken by the directors. No bylaws were filed and it is supposed that the management was given over entirely to La Fon when the Pacific Transfer Company's business was purchased. La Fon when the Pacific Transfer Company's business was purchased. La Fon when the Pacific Transfer Company's business was purchased. La Fon when the Pacific Transfer Company's bus

Attorney Williams has been trying to secure possession of this bond and has made demands on Parsons for it, but Parsons replied each time in language that the attorney did not seem to relish. practically out of existence, there is not much money in sight for the premium. Officers of the bonding company say they are ready to prosecute La Fon just as soon as the man is arrested. Parsons has taken over the transfer business on which the Young Men's Investment Company paid \$3000, after agreeing to pay \$8000 in installments, and the business goes on while La Fon's victims are whistling for their money Application for criminal proceedings has already been made by some of the latter.

The 3337,500 bond issue for the purchase of the West Side Water Company's city holdings proved more popular with the people than either of the other issues. The two-thirds majority necessary for ratification was returned from each of the twenty-nine municipal election precincts. In some precincts the ratio was more than forty to one. A total of 1797 votes was cast for the bonds. But 324 electors opposed them. FOR RESERVOIR.

Next in favor with the voters was the FOR RESERVOIR.

Next in favor with the voters was the \$150,000 bond issue for the construction of an impounding reservoir in the San Fernando Valley. These bonds received a two-thirds majority in every precinct but one. The electors of precinct No. 21, down in the Seventh Ward, rejected the impounding reservoir bonds by a vote of 23 for and 14 against. This loss, however, was handsomely made up by precincts in the Fifth Ward, one of which ratified these bonds by a vote of \$7 to 1, and another by 100 to 5, 1837 votes were cast for the reservoir bonds and 227 against them. inally priced at \$375-now only \$235. H ERZ CLAIMS
BANK PA

Being a banker is not all the sunny dream His Honor dreamed it would be. Grim trouble has come up to annoy Mayer Snyder's bank. An action for \$160,000 damages is threatened by two "promotors" who claim they were frozen out of the Cooperative Bank, and President Snyder fears that it may unjustly reflect upon the bank, which has, as a matter of fact, nothing whatever to do with the case.

The folks who are threatening to sue are B. L. Herz and Ernest Searelle who say the bank was a patent idea of their own devising and the patent was stolen by Parson Lehmer and sold to Mayor Snyder and others.

They have a long list of troubles. They have a long list of troubles. They have a long list of troubles. The main point is the claim that they made the plans and got the charter for the new bank and left it to their confidential cierk, Rev. S. G. Lehmer, to dig up the capital. Power of attorney was given to Attorney C. C. Davis, who was to get a capitalist with \$1,000.000, and so on, and so on, and so on, and se on, and seen.

will be retired by money raised in water rates, may be responsible for the failing off in the vote for the hospital bonds. These securities, while carrying by a ratio of almost four to one, were rejected in two precincts, and won by exceedingly narrow margins in several others. Precinct No. 21 in the Seventh Ward and No. 24 in the Seventh Ward and No. 25 in the Seventh Ward and No. 26 in the Seventh Testerday afternoon the Southern District of the Woman's Home Mis-sionary Union of the Congregational Church closed an interesting annual meeting in the First Congregational Church. There were about two hun-dred delegates present, and many visdred delegates present, and many visitors from the various city churches. The election of officers for the ensuing year resulted as follows: Honorary President, Mrs. Warren P. Day. Los Angeles: President, Mrs. George Robertson, Mentone: Vice-President, Mrs. Oilver C. Bryant, Los Angeles: Secretary, Mrs. O. H. K. W. Bent, Los Angeles; Treasurer, Mrs. Thomas A. Barnes, Pasadena: Vice-President for Los Angeles and Orange counties, Mrs. S. G. Lamb, Highland; Vice-President for San Bernardino and Riverside counties, Mrs. S. H. Herrick, San Bernardino; Vice-President for Santia Barbara and Ventura counties, Mrs. Daniel F. Sheldon; Vice-President for San Diego county, Mrs. George W. Marston, San Diego: Executive Committee, Mrs. L. H. Frary, Long Beach; Mrs. H. N. Kinney, Claremont; Mrs. W. A. Lamb, Los Angeles; Mrs. H. W. Mills, Los Angeles; Mrs. C. B. Summers, Claremont.

The past year's work was discussed and the treasurer's report showed that \$3,100.64 had been collected for missions. Special workers in the mission achoois presented the work being accomplished there, and the Chinese and Japanese missions received special consideration.

Yesterday Afternoon Prof. W. F. fred delegates present, and many vis-tors from the various city churches. Less than 10 per cent, of the actual umber of registered voters in the city number of registered voters in the city visited the polis, electors apparently caring little whether the bonds carried or not. A full vote was registered among the City Hail employés, and among the city electors holding positions under the county government. These employés were each allowed two hours off. to vote, and most of them made use of the opportunity. Followers of Councilman Todd of the Eighth Ward worked all day in a quiet way against the ratification of the bonds for the purchase of the West Bide Water Company's plant. Todd opposed the bond issue on the floor of the Council, when the question of purchasing the plant was discussed there, on the ground that the price was excessive. Todd said that the city should condemn the property and let the valuation be fixed in court.

BONDS WILL SELL.

City Attorney Mathews said last night that he did not believe the city would find it difficult to find a cash buyer for the latest bond issue. The West Side Water Company has pledged itself to find a purchaser for the 131.500 bond issue, said the City Attorney. The bonds will not be turned over to the company in payment for the plant, as the law will not permit the city to dispose of them except for cash. But the West Side Company has agreed to have a cash buyer on hand when the bonds are ready to be placed on the market. That will mean in about ten days. The city now has no bonds for sale. But we shall have to cast about for a purchaser for the reservoir and hospital bonds. The 150,000 issue for the detention hospital will doubtless find a ready sale, as there are a number of local investors willing to take that amount of bonds."

local oratorical contest, given under the auspices of the Oratorical Association of the University.

The first prize, \$25 in gold, was awarded to Guy Dyar and the second prize, \$15, to W. B. Christy. There were five contestants.

The programme opened with invocation by Presiding Elder A. W. Adkinson, and this was foliowed by songs by the University Glee Club. Charles F. Seymour's oration was on "The Land of Optimism:" W. B. Christy's theme was "The Grecian Supremacy." and Guy Dyar had as his subject, "Back to the People." In the topic "One of the Problems," Theodore L. Harder gave a stirring address on the spread of lynch law and E. B. Garcia spoke on "The Decree of the Ages."

Each speaker won warm applause, and the judges found it no easy matter to selec from five so evenly-balanced contestants. The judges were J. D. Fredericks, B. O. Kinney and Thomas O'Hanlon on thought and composition, and W. A. Harris, Thomas O'Hanlon and Byron Oliver on delivery. The prizes were awarded by W. A. Harris.

The winners in this contest are to participate in the intercollegiate contest at Pomona in May. The university has a record of having won seven out of twelve of these contests.

A number of suits have recently been filed to quiet title to property subject to assessment under the Vrooman act for street improvement. The object of these suits is to evade payment of street assessments. Contractors Tryon & Brain, D. F. Donegan and a number of others have thousands of dollars up the these suits for street work among the time the improvement was completed.

The contractors have discovered that these suits have been brought by attorneys who received \$1\$ from each property owner affected and the promises of half the value of the assessment in case it is knocked out. Contractor Charles Stansbury said yesterday afternoon that two attempts had been made recently by attorneys to hold him up on street work with the threat to knock out the assessments if he did holf pay a contingent fee.

"In each case," said Stansbury, "no protests had been made to the Council or to the Street Superintendent against the quality of the work. The argument used by the blackmailers was that there was a flaw in the assessment and unless I paid them money they would knock it out. I refused to be black.

Two tests have been made of the milk from one large dairy in the Eagle Rock Valley. In both tests the milk was below standard. The first of the series of preliminary investigations into the ramifications of the swindling operations carried on by the Masterson-Christie-Taylor com-bination was begin yesterday, in Jus-

Taylor's imagination, and that the property was purchased for the National Construction Company—on joint account, so to speak—and that from the time they got possession of the property Taylor posed as both E. E. and S. W. Means in the negotiations with the Continental Building and Loan Association for a loan. With Masterson attending to that association's business in the appraising of values it was easy to make such representations as suited, and an advance of \$572.40 was obtained on the old house and lot that had been purchased for \$1300.

Just how the money was advanced and on exactly what representations will be told this morning when the San Francisco officers go upon the stand.

QUEER CASE THIS.

CLAPP CONTEST STILL GOING. Old Albert Clapp must be twisting in his grave if he realizes what his friends are doing to the little bit of property he left behind. He was a tough old fellow and would have taken it with him if he could, but as he with him if he could, but as he it with him if he could, but as he couldn't, he just tangled things up a bit and they've kept going ever since.

Before he died he made his one bit of real estate over to his friend, H. J. Vatcher, and also left him the property by will, but the widow—she had been divorced from Clapp—went into court and knocked both the will and the deed out. But meantime Vatcher had taken possession of the property and had sold it for \$550, much less than it was worth. Now that he finds that he had no right to take or sell anything he finds himself in a queer position.

sition.

But he is about to appeal his case to the Supreme Court, and Attorney Hester prepared his statement on appeal from memory. He set out the testimony as he remembered it, but the attorney for Mrs. Clapp didn't remember it just that way. The simple way out of the difficulty was to have a transcript of the testimony prepared, but Mrs. Clapp says she is penniless

and Vatcher says he is worse off, for he doesn't know where he does stand in the matter. The transcript would cost just \$250. Yesterday Attorney Hester said that he would be willing to pay the court reporter at the rate of \$10 a day to read over the testi-mony, and Hester would have his own stenographer present to take down all

valued at \$5000, and no testimony masbeen adduced to overcome that showing.

Isaac Burkhart for one part of his
holding has been awarded \$900, but
states in his protest that it was sanown
that it was really worth \$1000, and had
improvements upon it worth \$500. He
further objects to the amount fixed
for damages which will accrue to the
remainder of the lot by the severance
of the ten-foot strip. There is on it a
\$10,000 building which will either have
to be moved or be destroyed, and he
estimates the total damage to be \$2550.
He asks that he be allowed \$1500 for
the west ten feet of lot 28 with \$4100
as damages to be suffered by the severance; also \$1250 for the ten feet on
the remainder of frontage and \$1650
damages arising from the severance,
making in all a total of \$7375.
Action was begun by the city against
D. C. Lame and a large number of
other property owners on the street
about to be widened, and the two
protestants named are the only ones
objecting. They ask that the matters
in dispute be referred to a jury impaneled to try the issues, and failing
that, that the court may have presented to it the testimony adduced
and which they maintain will sustain
their contentions. Judge Wilbūr continued the hearing until April 25, at
which time testimony will be heard by
the court in behalf of the protestants.

James Smith & Co

was owing H. C. Smith a note that with interest aggregated \$1000, and Smith was anxious to have his money. So was Creighton, for the matter of that, but he said he had no money and hadn't had any for a good long while; indeed, he had been practically insolvent for several years. The debtor said that he had some mining stock, it was true, but both that and his house belonged to his wife, and so Smith couldn't get anything there. Smith falled to uncover any assets upon which he could levy, but he did learn just where he stood. he is shamming, but the greater number of the trustics and turnkeys believe that the man is absolutely insane. In court Hercules sat from morning till night with his body doubled over and with his head hanging loosely on his hands. Never a move and scarce a motion throughout the day did he make save when the Deputy Sheriff would take him out of court or bring him back again.

The taking of testimony will be continued this morning. REPORT ON WIDENING.

The report of the referees appointed in the matter of widening Los Angeles street between Fifth and Seventh streets, has been filed in the Superior Court, and two protests were died about the same time. J. W. Henrick, A. B. Benton and W. H. Griffin were the referees, and the expenses attending their investigations into the damages to accrue to property owners by reason of the condengation of the strip along the property line amounted to \$425.50.

The total value of damages to be awarded for land necessary to be condemned for the city's use is about \$90.00. The protestants referred to are William G. Kerckhoff and Isaac Burkhart. The former is awarded by the referees' the sum of \$2550 for the tenfoot strip to be taken, but it is alleged in the protest that in Sepiember, 1908, it was shown that the land was valued at \$500, and no testimony has been adduced to overcome that showing. TWO DIVORCE SUITS. Mary I. Carew Johnson was granted a decree by Judge Allen yesterday, divorcing her from R. R. C. Johnson, on the ground of desertion. In the same department George W. Moore was granted a decree divorcing him from Elizabeth A. Moore on the same ground.

RECEIVER'S SUIT. The Los Angeles Trust Company, as receiver, in the estate of the Model Gas Engine Company of Indiana has begun suit against P. H. Greer to recover a quantity of machinery alleged to be at Third and Los Angeles street or 335,000, their value, with \$1000 additional as damages,

WILDING ALIMONY. Percy R.
Wilding was before Judge Conrey yesterday to show cause why he should not be punished for falling to pay the alimony ordered when his wife obtained her decree of divorce. At that time he was ordered to pay \$50 a month, but since then—and it is quite a long time ago—Wilding has remarried. He testified that he had received \$500 a year as an income and had paid out \$600 to wife No. 1, and had been compelled to borrow \$500 from wife No. 2 to keep his present household in running shape. He asked that the alimony be reduced to \$25 a month. Wilding was in arrears \$100. The court took the matter under advisement.

If all the troubles of the coal miners could be adjusted as satisfactorily as that which many months disturbed the happiness of Mr. Henry Story, of 52 Muskingum avenue, Zanesville, Ohio,

Muskingum avenue. Zanesville. Ohio, it would be a most welcome relief for both the men and their families.

The miners form a large and important part of our population, and they will be greatly interested in the solution which Mr. Story found for a difficulty in which any one of them may find himself at any moment, as it is a frequent incident in the miner's occupation and a serious hindrance to his success.

The facts in the case were related by Mrs. Story, who was deeply concerned, and who is a very happy woman today because her husband has had such a fortunate escape from the calamity that threatened him.

"At last he went to a doctor, who told him that his trouble had come from hard work. The doctor gave him some medicine, but it did not do any good.

"In the meantime I picked up a paper and read about Dr. Williams' Pink Pills for Pale People and thought my husband's trouble might be with his nerves. I got two boxes of the pills for him and had to urge him to take them, because he had always been so healthy that he was not in the habit of taking medicine.

Mrs. Fitch had not been well for several years. Since 1901 she and her husband had lived most of the time in the Hawaiian Islands. They came to Los Angeles last November and lived at No. 2668 Menio avenue, where she died. Bright's disease brought on by typhoid was the immediate cause of death.

Shoreham, Vt., was her birthplace. She and Mr. Fitch were married in 1853. "The Song of the Flume," her earliest, production in verse, was highly commended by William Cullen Bryant. "Bound Down," published in 1852, were among the novels which she wrote. One of her later works was "Better Days," a movel in which she and her husband shared the creation. These three are best fitted to receive the inner revelations—they were with Him when 'he raised the daughter of Jairus from the dead; they will be with Him when he suffers in Gethsemane.

(3.) It was on the highest mountain top in all that country, Mt. Herman, the most suitable place for such an experience. It was far away from the crowd and safe from intrusion; it was high up, so that all would have the inspiration and elation that comes from a rare atmosphere and a great elevation.

(4.) It was while he was praying. He went here to pray and God answered his prayer with a rare experience. He often went apart to pray and sometimes the disciples came to him afterwards, but this is the only time we know of their seeing him at private prayer. He allowed it for a godd reason. In such an hour His soul and body were both better fitted for the transfiguration and they were better fitted to witness it.

For He knew not what to answer; for they (7) became sore afraid."

They came for his sake and for the sake of his disciples.

(1.) They tell how heaven is interested in what e Jaus is doing and approves His method of dying to achieve His purposes, for as we learn from Luke, those two men and Jesus were talking of His coming death.

(2.) They remind Him that He is finishing the work they began. Moses represented the prophets and Jesus is the finial teacher sent from God. Their presence would also impress the disciples that Jesus was supported by law and prophecy and was the culmination of both. They spoke about His comming death as a different thing from what the disciples thought it must benot a fated and fatal defeas, but a deliberate enterprise which He was to accomplish, not simply an awful battle, but a campaign that would lead to victory.

compiles, not simply an awful battle, but a campaign that would lead to victory.

(3.) They impressed the disciples.
All three went to sleep soon after arriving at the summit, for it had been a follsome ascent and besides it was night. They were awakened from sleep when the bright light from Jesus smote their eyes and they awakened in time to see the glory and the visitors and hear their words.

The disciples were dazed, owing to their previous sleep and the biinding light. They enjoyed the glory, however, and the ecstacy of it. "They were sore afraid," yet they had a delightful experience." In good natured stupidity Peter proposed that he would take some boughs from the trees and build booths for the visitors and all would stay. In his confusion and fear Peter had anenlarged vision, and he would profit by it in the days to come.

the Japanese War Minister has made a ruling that every newspaper correspondent with the Japanese army shall have a Christian interpreter, unless the correspondent himself speaks the language. The reason for this ruling is that in the war with China it was only the Christian interpreter who proved reliable and a creditable representative of his country. So does a government which is not avowedly Christian add its testimony to the transforming power of Christ.

er of Christ.

Helen Keller's achievements are the marvel of the world. Her soul has emerged triumphant out of the two-fold prison of darkness and silence. In a sense, sight and hearing have been given to her by education. The analogy between her transformation and that effected in a sin-darkened life by the gospel is very close. Jesus brings light—the light of a new world, here and hereafter. He opens up undreamed-of worlds of pleasure. Powers unsuspected are evoked at His touch. Largeness, peace, joy, service—all come to the life which He enters.

NEW YORK, April 45.—Today was another day of languid speculation, and the moderate operations by a small contigent of professional traders who were not hold enough to follow prices to any distance from last night's conspicuous movement of the day was that in Erie, and the steady accumulation of stock made some impression on the general lat, resulting in a raily from the early deciding, the existence of dividend holdings in Erie by such holders as those arrayed in the contest for the control of Northern Pacific revived some of the did rumors about the review of the contest for the control of Northern Pacific revived some of the did rumors about the contest for the control of Northern Pacific revived some of the old rumors about the contest in the Northwest. The early heaviness centered largely in the Pennsylvania group, and was due to the announcement of a 18,000,000 mote issue by Baltimore & Ohlo. These temporary expedients for funding operations are fell to be piling up ahead of the market's absorptive power. This has currities. The week's current movement indicates are extraordinary accumulation of cash at this center. Seeting exchange continued very firm, and it is considered probable that further gold will be exported at available opportunities. The Bank of England's policy in reducing the discount rate this week is believed to encourage the re-

As the stated speaker of the even-ing, Mr. Pease introduced Percy, it. Wilson, who took for his subject: "In-dividual Liberty," After reviewing conditions, industrial, financial and conditions, industrial, financial and social, as avolving from medieval standards, Mr. Wilson canvassed the present-day situation. Arguing from the standards so long in vogue when a man with a club was only subdued by one with a bigger club, Mr. Wilson dwelt at length upon the idealistic that presupposes one factor conferring with the opposing factor for the settlement of differences and for the securing of the greatest good to the greatest number. To our ancestors, the speaker mentioned, was given the task of securing our liberties—to us is given the commission of preserving those lloerties. Continuing, Mr. Vilson said:

mannented with Annunciation lilies and mountain ferrar; the library was festive with Duchess roses and the dining room was gay with quindities of real property of the propert sity following that) free competition could be trusted to promote the common good; that non-interference by law in commercial and economic life was for the advantage of all; that by giving each man the liberty to choose the line of life which best suited him, industrial efficiency would be increased. By encouraging the investment of capital wherever anyone saw a chance to profit, invention would be stimulated, and the arts developed. By allowing competition to regulate prices there would be provided better economy in distribution of the world's products and greater enjoyment in their consumption.

and greater enjoyment in their consumption.

"The carrying out of this thory of individual liberty, non-interference by law with business or industrial life, has resulted in great progress, in immense development of resources, and the making of great fortunes. Railroads have been constructed for thousands of miles, factories for the production of all classes of commodities have sprung up, in the making and exploitation of inventions our country leads the world. Fortunes have been accumulated by the many, but as human nature is weak and men are of different capacities, the accumulations have not been equal. But on the whole, men in this country have been for a long time, and many are still disposed to regard non-interference by law, i.e., individual liberty, in all phases of business life as a fundamental rule of social action.

THE RIGHTS OF YOUTH.

"Youth must live, develop and have employment. Its youth is the hope of the state. The right of any youth where there is plenty of work to be done in the world to learn a trade and thereby earn an honest living, making himself a self-sustaining good citizen, would seem to admit of no controversy. Yet there are organizations of men which deny this right-organizations which arrogate to themselves the right of determining not from any standard of fitness, capacity or ability, but from reasons of pure personal buffehness, whether or not a youth THE RIGHTS OF YOUTH

RIDICULOUS CLAIMS

the candid fair American mind would appear to be beyond question.

RIDICULOUS CLAIMS.

"Yet there are so-called organitations that claim the right by strike, sympathetic strike and boycott, to determine who shall work for another, what the amount of such work shall be, what products he shall consume, whom he shall deal with in his business, what inventions he shall use, what, if he be in trade, the amount, character, and quality of his product shall be, and what the disposition thereof and to whom. Certain of these organizations in an Eastern city assumed to dictate to the sorrowing and grief-stricken when and through whom they should bury their beloved dead. "Is that freedom? Is that an untrammeled right to pursue happiness or induige in sorrow? Hands are tied, feet shackled. The liberty enjoyed is that which the prisoner bound to the conqueror's car enjoyed in the time when individual liberty was but an expression without practical meaning. "The sacred right of private contract has under all systems of law and civilization been recognized. By out own organic law, the Constitution, it is declared inviolate, so that no Stata, no public authority, not even the general government, can pass a law that may violate the obligations of any contract. "Yet there are bonded together certain organizations of men who claim that they should have the right by persuasion, peaceable or otherwise, by boycott, to induce others to violate their sacred obligations, and that in all this they should have the right by persuasion, peaceable or otherwise, by boycott, to induce others to violate their sacred obligations, and that in all this they should incur no liability for injury done. It is a remarkable contention, it strikes at the root of all law, at the basis of modern civilization, which has its basis in contract, at the foundations of government itsek."

Clothing Sale That Admits of No Competition-Men's \$20 2-piece Outing Suits at \$8.95

This is a statement that the most incredulous will have to admit as a fact if you will give but just one minute to inspecting one of these suits and by comparison with suits that other stores in the city are

selling at \$15.00, \$17.50 and \$20.00, they are in almost all respects the same style of goods included in this lot. Our Mr. Dreyfus who was recently in the East, purchased the entire surplus output of one of the best known factories who made an exceptional price concession to get us to take the entire stock as they had to begin work on their fall and winter orders. The materials of these suits are fine quality Worsteds and all wool Crashes. The coats are made either single or double breasted, the very latest style; has long narrow lapels, narrow collars, form fitting slashed back, broad concave shoulders; "peg top" pants with cuff bottoms; and are in all the newest shades of plain tan, gray, steel and brown, as also a large assortment of fancy mixtures both light and dark. They are elegantly tailored throughout and are in sizes 34 to 42. They will go on sale Saturday at choice
